STEVEN WEBB
SINGER / SONGWRITER

Steven Webb blesses our stage in April with his special blend of Acoustic Pop and Folk music. He is a singer/songwriter currently residing here in CT. The music and sounds of the 60's were major influences, and you are sure to hear strains of The Beatles, The Beach Boys, The Moody Blues as he plays. Steven began performing on stage while in high school and worked with several bands in the US and in Europe. In 2004 he again began performing locally. Steven writes, arranges, records and produces all of his music. An EP of five songs was released in the fall of 2006 and he has recently has had three songs occupy the top three positions in the Indie/Pop music chart of the NumberOneMusic.com international music portal.
